

## High-Capacity Ammunition Magazines are the Common Thread Running Through Most Mass Shootings in the United States

*Columbine shooter armed with Intratec TEC-DC9 assault pistol equipped with high-capacity ammunition magazine*

Since 1980, there have been at least 55 mass shootings (3 or more fatalities) where the shooter used high-capacity ammunition magazines. A total of 503 people were killed in these shootings and 495 were wounded. This number is likely a significant undercount of actual incidents since there is no consistent collection or reporting of this data. Even in many high-profile shootings information on magazine capacity is not released or reported.
